Guideline for Manuscript Relevance

1. Read the title
   a. If unrelated to security and privacy (S&P): **reject the manuscript, continue to the next manuscript**
   b. If related: move on to the next step
2. Read the abstract and introduction
   a. Does the manuscript outline S&P misconceptions?
      i. If no: **reject the manuscript, continue to the next manuscript**
      ii. If yes: move on to the next step
   b. Does the manuscript note that general users / public hold misconceptions outlined?
      i. If no: **reject the manuscript, continue to the next manuscript**
      ii. If yes: **accept the manuscript and mark it as relevant.**
